Versatile PoE Port

Featuring 16* 10/100/1000Mbps PoE ports which support IEEE802.3af/at standard and 2 * 1000Mbps Uplink and 2 Gigabit SFP ports. the PoE switch provides Maximum power budget of 150W and 30W for single PoE ports sepectively ,allowing users to have several different Networking products configured

Flexible Extend Mode

With the extend mode, the PoE Switch Series is able to offer more flexible choices for long range transmission, extending the distance up to 250m, which is greatly helpful to bring better user experience.

Surge Protection Design

Reaching 6KV surge protection, the PoE ports owns the capacity to keep the PoE Switch from lightning strikes and other electrical surges, offering reliable performance even in some harsh environments.

2Gigabit SFP Uplink Port

With 2 SFP module slot available, the SFP uplink port is ideal for connecting the switch to the network's backbone, providing more than enough bandwidth and stability for ultra high speed data transferring, Beside the SFP can transmittte the date with Max 100Km distance with more economic solution
